

875—110.4(88,89B) Labels and other forms of warning.

110.4(1) The chemical manufacturer, importer, or distributor shall ensure that each container of hazardous chemicals leaving the workplace is labeled, tagged, or marked with the following information:

- a.* Identity of the hazardous chemical(s);
- b.* Appropriate hazard warnings; and
- c.* Name and address of the chemical manufacturer, importer, or other responsible party.

110.4(2) For solid metal (such as a steel beam or a metal casting) that is not exempted as an article due to its downstream use, the required label may be transmitted to the customer at the time of the initial shipment, and need not be included with subsequent shipments to the same employer unless the information on the label changes. The label may be transmitted with the initial shipment itself, or with the material safety data sheet that is to be provided prior to or at the time of the first shipment. This exception to requiring labels on every container of hazardous chemicals is only for the solid metal itself and does not apply to hazardous chemicals used in conjunction with, or known to be present with, the metal and to which employees handling the metal may be exposed (for example, cutting fluids or lubricants).

110.4(3) Chemical manufacturers, importers, or distributors shall ensure that each container of hazardous chemicals leaving the workplace is labeled, tagged, or marked in accordance with this rule in a manner which does not conflict with the requirements of the Hazardous Material Transportation Act (49 U.S.C. 1801 et seq.) and regulations issued under the Act by the Department of Transportation.

110.4(4) If the hazardous chemical is regulated by the division in an OSHA substance-specific health standard, the chemical manufacturer, importer, distributor, or employer shall ensure that the labels or other forms of warning used are in accordance with the requirements of that standard.

110.4(5) The chemical manufacturer, importer, distributor, or employer need not affix new labels to comply with this rule or 875—120.4(88,89B) if existing labels already convey the required information.
